

THE FURNITURE BOOK

OUR HISTORY

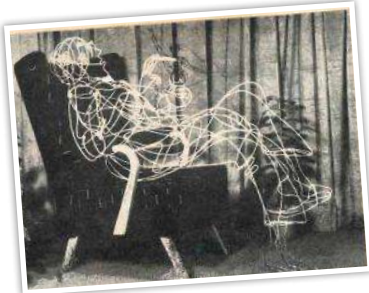

1938

Furniture Productions Bradford is formed in April 1938 to make domestic upholstered seating which will be sold directly to clients. World War II breaks out in 1939 and Furniture Productions joins the war effort by working for the MOD making equipment which includes a huge amount of ammunition boxes. The company continues to work right through the war.

1948

The NHS is formed in England, Scotland and Wales in July 1948 by Aneurin Bevan. World War II finally ceases in September 1945. In 1949 Furniture Productions Bradford recognises the potential merits of a new organisation called FIRA (Furniture Industry Research Association) and immediately gets involved influencing a number of developing standards to improve quality and safety in the industry. At the British Furniture Exhibition at Earls Court 1956 Furniture Productions Bradford created a stir with its stand prop 'Furpro Freddie' - a wire sculpture by Pullman.

1958

The iconic Morris Mini is launched in time to see the M1 motorway open. The Beatles are dominating the charts, and FURPRO as Furniture Productions Bradford are now known is now supplying seating directly into the NHS, following its acceptance as the first seating company to be awarded a contract on the newly formed PASA supply chain. The business is still selling domestic furniture through outlets such as Lewis', Schofields and Claridges in London. In response to trend changes in everyday life and the rise of atomic design, FURPRO releases its Axiom Chair which also demonstrates a move towards the contract market.

1968

We see the first man on the moon in 1969 and inspired by all the things Lunar and futuristic, the UK's first all moulded foam seating 'Fuma Bay Suite' is promoted in 1971. This coincides with decimalisation of our currency and it is only another year before Concord completes its first transatlantic crossing. Around the time Concord was a regular scheduled supersonic service, FURPRO won the gold medal at The Furniture Show for the Scheherazade range. Influenced by the 1920s it was seen as a modern element to complement the then popular mock-Georgian house styles.

1978

The late 1970s sees the first test tube baby, Thatcher coming into power and a new logo to represent the geometric design flavours of the styling world. FURPRO continues to grow from strength to strength in the contract world, our part of the then PASA supply chain for the NHS and establishing work relationships in the domestic world for the likes of Laura Ashley for its soft furnishings.

1988

With the rise of the housing boom and the fall of the Berlin Wall in 1989 the company looks to strengthen its healthcare offer and considers another brand change to reflect the level of craftsmanship and quality it offers. The company purchases James Chase and Sons brand to fortify its presence in the ecclesiastical market after making their seating ranges for more than a decade. The early 90s sees the company release the most comprehensive and cohesive acute care range ever seen which is called Hamilton with 24 different models and numerous options. This proves to be a shrewd move which the competition can only follow. With the company's affiliations with the likes of FIRA, BCFA and The Worshipful Company of Furniture Makers we become key influencers of the Furniture and Fire Safety Regulations of 1988 and the development of fire-retardant foams for furniture, which is seen as a major change in fire safety. To mark these achievements, FURPRO changes its name change to Knightsbridge Furniture Productions Ltd.

1998

NHS Direct is launched in 1998, digital television is introduced and the euro is established as a currency. The Spice Girls are the leading female supergroup promoting 'Girl Power'. Knightsbridge launches the 'Alpha' range - an ergonomically superior range of chairs based on a shell, complete with sporting arms made from self-skinning foam to aid cleaning and improve durability. It proves to be well accepted and perfectly in tune with the styling of the time. In 2005 the Design in Mental Health Network is conceived and Knightsbridge is seen as a key influencer on the progression of the furniture field.

2008

The company thrusts forward with dedicated furniture lines for the mental health market, working closely with experts at the likes of Rampton and Carstairs Hospitals. This results in winning successful major refurbishments for all establishments - once again leading the way in healthcare design. In 2010 sadly Knightsbridge's founder and Chairman, Dr Arnold Morre dies at 93 leaving an immense legacy in the industry to his charity, Bradford's War on Cancer, now part of Cancer Research UK.

2015

2015 marks a change in our company with the recumbent owners of 77 years, retiring to make way for a new leadership team with fresh ideas to drive us forward. At this time, we decided that more design-led ranges were needed to appeal to the corporate and hospitality sectors which culminated in four new ranges being launched at Clerkenwell Design Week in 2016 to much acclaim. Our efforts were rewarded by winning Design Team of the Year in 2017 just before our 80th anniversary in 2018.

2021

Efforts are concentrated on our core markets with great progress being made on products for the mental health sector and relationships being established for future collaborative work. Bruce Kenneth is identified as a quality partner and a preliminary scope is set out for furniture to be presented at Clerkenwell 2020. Covid 19, unfortunately, interferes with these plans but we are immediately immersed in supporting the NHS effort with a high demand for seating as the world comes to terms with the situation. We manage to pick up our design project and release Tron in 2021.

Welcome to our furniture book, we hope you find it as inspiring as we have compiling it.

Alan & Peter

ULTRACLEAN

ULTRACLEAN HIGH BACK WELDED SEAMS PATIENT CHAIR

UltraClean welded seam technology for infection management. Reduce the risk of nasty odours, dirt and bacteria which can get trapped in those awkward to clean areas.

The UltraClean High Back Welded Seams Patient Chair has been developed with welded seams on the seat cushion and back cushion to reduce the risk of ingress of fluids and harbouring of dirt and bacteria.

To aid infection control, the chair has also been designed with a hygiene gap to prevent trapping of dirt and bacteria between the

seat and back as well as a polished frame construction with an anti-microbial finish.

UltraClean's ergonomically designed backrest provides excellent lumbar support and increased comfort whilst the waterfall seat reduces pressure to the back of the legs.

To enable you to co-ordinate with existing décor or ward colours, the UltraClean is available in a number of bright vinyls which are anti-microbial, bleach cleanable, waterproof and stain resistant.

HOW TO ORDER BEBOP

STEP ONE

Choose from our most popular configurations

Bebop Configuration A Config. A consists of:

2 x Bebop Treble Bench Unit with one Curved End
BEBOPK8465

2 x Bebop Double Bench Unit with one Curved End
BEBOPK8464

1 x Bebop Double Bench Unit
BEBOPK8462

Bebop Configuration B Config. B consists of:

1 x Bebop High Back Double Unit with LH Facing Arm
BEBOPK8432L

2 x Bebop High Back Internal 60 Degrees Wedges
BEBOPK8436

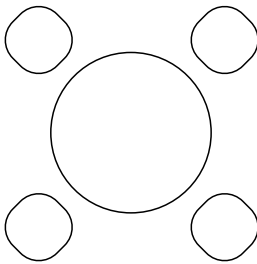

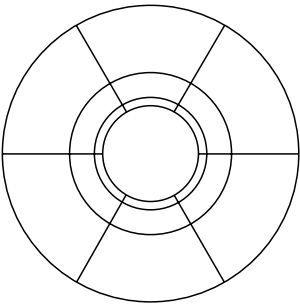

1 x Bebop High Back Double Unit with RH Facing Arm
BEBOPK8432R

Bebop Configuration C Config. C consists of:

2 x Bebop Low Back Double Unit LH Facing Arm
BEBOPK8422L

2 x Bebop Low Back Double Unit RH Facing Arm
BEBOPK8422R

2 x Bebop Low Back Internal 90 Degrees Wedge
BEBOPK8427

Bebop Configuration D Config. D Consists of:

6 x Bebop Low Back External 60 Degrees Wedge
BEBOPK8428

Bebop Configuration E Config. E Consists of:

1 x Bebop Circular Dining Table 1100 Ø
BEBOPT-C1100

4 x Bebop Stools
BEBOPK8417

HOW TO ORDER BEBOP

CASPIA

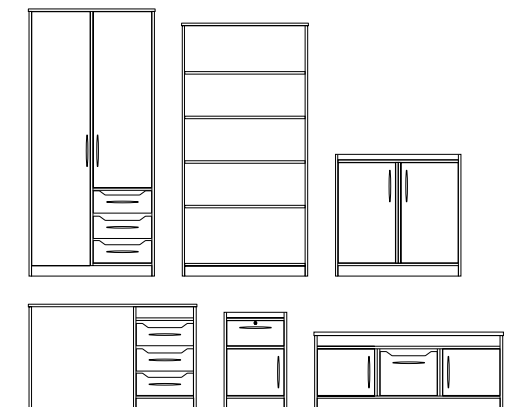

CASPIA

Caspia range with additional features to support users with dementia

- Contrasting doors and drawer fronts, inset to create visual boundary around fascias
- Contrasting back panels to improve visibility inside units
- Shaped top edges to drawer fronts for visual access into drawers
- Raised upstand with radiused front corners on bed sides to prevent items rolling off
- Raised lip on bedside top panels to limit spills over front edge
- Wardrobes have flexible interiors and removable doors for use if user's condition develops
- Optional polycarbonate vision panels in wardrobe doors
- Memory box supplied with pinnable back panel. Handleless door is not obviously accessible, however can be easily opened to add or swap contents when required

Default Handles:

Brushed tapered bow

Alternative Handles:

Lacquered walnut knob

Narrow chrome bow

CHALLENGING ENVIRONMENTS SEATING SPECIFICATION

Designed to suit the demands of a diverse range of challenging behaviours, our mental health collection has been created with the specific needs of healthcare providers and patients in mind.

Many of our products have been developed following extensive research working closely with customers. From concept through to production, we have worked to create safe and robust yet stylish products to help build an effective, practical and therapeutic environment.

Our EXTREME Seating Specification includes:

- Plywood skinning on all possible faces - including plywood underbottom reinforcing and adding weight
- No visible staples
- Use of non-retractable screws in exposed areas
- Extreme feet fitted with stainless steel non-retractable bolts
- Removal of any metal back tacking or crocodile strips
- Optional weighting of selected chairs and settees to prevent lifting
- Zipper tag over sewn
- No gap down side of seat and back where possible
- Secure underbottom with non-retractable screws

The icons shown inform you of the features and benefits applicable to each individual range

EXTREME FITTED FURNITURE

EXTREME FITTED FURNITURE

EXTREME FITTED FURNITURE RANGE

Knightsbridge Furniture offers a selection of fitted furniture manufactured from a variety of substrates which offers optimum strength, stability and design for your building which is tailored to your specific needs.

Every project is built specifically to meet your own space requirements, design features and colours. We take into account the level of security required during our initial consultation and offer the correct substrate and designs to match your environment and budget needs. All surfaces are durable, hard-wearing and easy to clean.

Options offered to provide maximum safety and minimal risk include:

- Anti-ligature considerations
- Anti-tamper fixings
- Anti-pick mastics
- Non-removable drawers
- Wardrobes with or without doors
- Doors with piano hinges
- Sloping tops
- Integrated anti-hide spaces

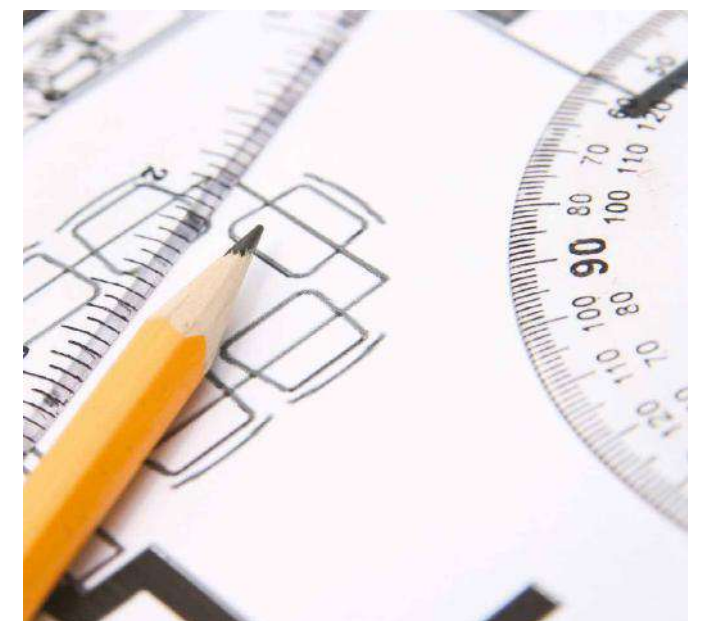

We offer a bespoke design, manufacture and installation service to ensure that the finished result is produced to your individual specification.

As an approved NHS Supply Chain contractor specifically endorsed for Mental Health environments (NHS Mental Health Contract Number 2012/S 38-061381) Knightsbridge Furniture offers a complete project management service including design, scheduling and installation.

Samples can be made available for mock-up rooms to give you peace of mind that you are selecting the best choice.

From site surveys through to pre-start meetings and project handover Knightsbridge Furniture's contract management team will keep you informed and work to your exacting standards.

Fitted furniture is available for almost all areas of your environment including bedrooms, lounges and bathrooms.

 - Corners and edges are rounded to maximise safety
 - All surfaces are durable, hardwearing and easy to clean
 - Optional locking available upon request

Not only is creating market-leading furniture our specialism, fabrics and finishes are our forte. Choosing the correct upholstery material for a healthcare or care setting is crucial in protecting patients, visitors and professionals from hospital-acquired infections.

Knightsbridge Furniture's fabrics have been specially designed and developed to cope with the demands of healthcare environments, whilst retaining an attractive and modern aesthetic. Our choice of soft fabrics and vinyls are not only efficient for these types of settings, they come in a wide range of colours and styles, as well as our stock fabrics meeting the BS5852 part 2 crib 5 flame retardancy standard.

Types of fabric

Vinyl:

Popular within hospitals and healthcare settings, vinyl is practical, low maintenance and easy to clean. Not only does it have an abundance of practical features, it is available in a wide range of colours and textures to suit the branding or style of individual settings.

Durable, fire retardant and liquid repellent, our stock vinyl collections incorporate anti-microbial ingredients to kill a wide range of bacteria, including MRSA and e-coli. This material is also resistant to many common stains including urine, mild alkalis/acids, beverages and most common household products.

Fabric: Skopos Bonita Lima

Fabric: Camira Blazer Oriel

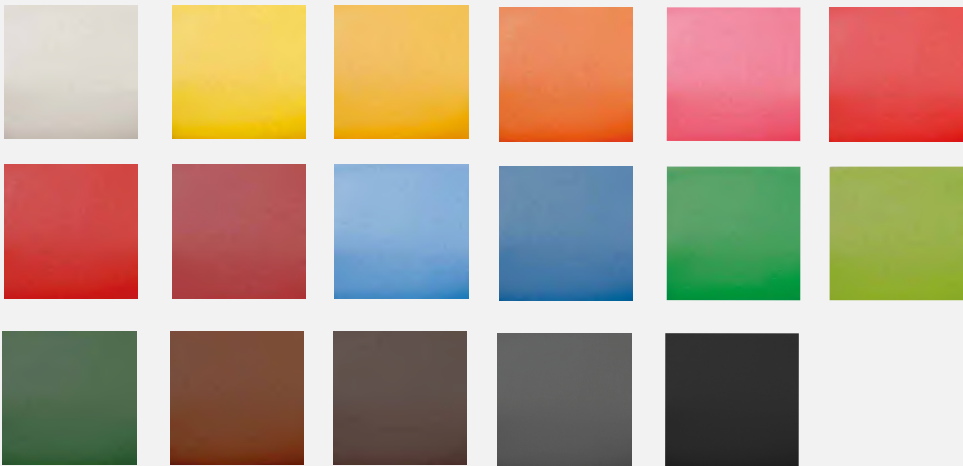

Vinyl: Chieftain Just Colour Bubblegum

Soft waterproof fabrics:

Available in a wide spectrum of colours and designs, soft waterproof fabrics can be used to create relaxing environments, without compromising the need for waterproof coverings. Multi-functional, attractive and practical, our soft waterproof fabrics have integral anti-microbial ingredients, making the fabrics effective against bacteria, including MRSA and e-coli.

Soft fabrics:

Where patient usage is less of a consideration, soft covers can create a more domestic and homely environment. Our collection of soft fabrics come in a wide selection of designs and colours, ensuring that whatever the design of your scheme, we will have a fabric to complement your décor.

Wood finishes:

As well as our soft and vinyl fabrics, we also offer a selection of wood finishes. A wood finish is available on all of our ranges, unless specified otherwise, and includes hygiene+ anti-microbial protection to kill bacterial 24-hours a day. This is an excellent choice for settings where minimising the spread of infections and viruses is of the upmost importance.

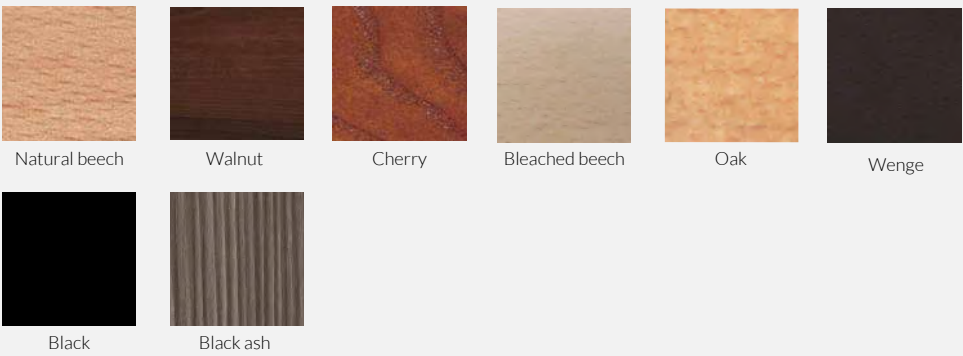

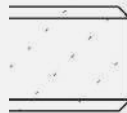

Table top options:

All our table tops are available in a choice of Natural Beech, Walnut and Oak to complement our wood finishes as well as White and Black. Please specify top and frame finish at time of order. We also offer a choice of 2 edge profiles on our standard tables. All challenging environment tables are supplied with a 32mm thick top with bullnose edge.

Standard table edge profile options (standard ranges only)

Polished Chamfer (LP2)

Square Lip (SL25)

All challenging environment tables

Challenging Profile

SERVICES

Expert advice

We understand the importance of choosing the right furniture and aim to make the selection process as easy as possible. Our experienced sales force and dedicated customer service team are available to provide advice and guidance when selecting both furniture and fabrics.

Samples

We can arrange to deliver sample products and fabrics to your own premises for assessment prior to purchase. Please contact us directly or speak to your account manager to discuss this service.

Showroom

Customers are welcome to visit our extensive showroom, where you can compare and contrast numerous models with the help of our experience sales team.

Mobile exhibition unit

Our large mobile showroom can bring our products straight to your door to allow you and your colleagues to view a number of furniture choices. Please contact us directly or speak to your account manager to arrange a visit from the Knightsbridge show van.

Factory tour

We extend a hearty and open invitation to all existing and prospective customers to tour the manufacturing facilities here at Knightsbridge. We would genuinely enjoy you witnessing the high standards worked to here and the pride we have in the work.

Furniture fabric care

As part of our after sales package, we can provide technical guidance on how to care for your furniture and the fabrics you choose.

Contract services management

Large or complex schemes will benefit from our project management service covering pre-contract panning, assistance with order and delivery sequencing and installation services.

CAD layouts

In order to maximise the utilisation of space, particularly with large projects, we can provide Computer Aided Design services to support your choices.

Leasing

We are able to offer leasing to help you make the most of your budget. Working closely with our leasing partners we can provide a variety of packages from two to five years.

Renovation

Our experienced service team offer a renovation facility where we recover and restore Knightsbridge chairs to “as new” condition. This is very popular when budgets are limited or when a simple colour change is required to freshen a scheme. This also helps when furniture is accidentally or intentionally damaged. We are proud that this activity also supports our efforts towards a more circular economy. Please contact us directly for a quote or advice about this.

CAD resource library

Our CAD resource library includes 2D and 3D CAD blocks and Revit (BIM) files for most of our models. These are provided free of charge as a tool to help with your scheme or layout
